D. W., Box 10, News-Times.

Here is the latest true story of the Want Ads and their wonderful work. It is just one story of thousands, but it is typical of what they can do and really do every day in the year.

The chamber of commerce of the city of Albany, N. Y., two menths ago, received word from a certain manufacturing concern, which made gloves, that it wanted to come to Albany and locate there. The only thing that the concern wanted assured was that it could get 150 girls to enter its employ should it come.

The chamber of commerce of Albany, being a real, live body, at once ran a Want Ad in a leading paper of the city, asking for girls who wanted to work in such a factory. The Want Ad told of the kind of work demanded and what the pay So much for the facts of the first part of this procedure, en-

gineered by men. The result of the second part of the procedure-that engineered by the Want Ad-was that in less than ten days more than 300 girls had applied by letter for jobs, and several score came to the chamber of commerce in person, despite the fact that the Want Ad told them not to do so. Albany, consequently, got a new business enterprise through

the instrumentality of the Want Ads. New, the moral of this true, little tale is that what Albany did accomplish through a Want Ad, every other city and town and village in the country can accomplish in the same way. And, more than this, big business concerns, mercantile houses and private individuals can get the same result in almost any

Just realize what this means: The chamber of commerce of Albany expended probably \$1.50 on the Want Ads it kept in the paper for three or four days, and, in return, got an enterprise for the city which mean thousands of dollars to Albanians in business done and salaries paid. That is the usual size of the dividends paid by the Want Ads-so just think these facts over and consider if it will not pay you, too, to read the News-Times Want Ads daily and use them often.

Price \$1,250.
